Siretta
Inspired Wireless M2M Technology

Registration, Evaluation, Authorisation & restriction of Chemicals (REACH 209) Declaration of Conformance

To our valued customers,

Siretta Ltd endeavour to ensure that all products conform to the current legislation for REACH compliance.

We work closely with our supply chain, for raw materials purchasing and third party subcontract manufacturing partners, to investigate and procure materials that do not contain hazardous materials or are within the framework of percentage volume per weight.

When new materials are added to the lists, investigations into materials and processes are undertaken which can take some time to complete. Changes are made, where appropriate, to ensure we remain compliant to the regulations.

Signed.....

Robert Wardle

Director
